#### intro

# Tax accounting made easy

Focus on harnessing your tax data and uncover critical insights that will support strategic decision-making within your direct tax control framework. Streamline your tax activities and gain more confidence in your data.

#### features

# Bring speed and insights to your Tax Reporting process

TaxProof offers a solution for easing the tax accounting-related workflows for companies ranging from small to large-cap, while reducing the operational costs and risks.

#### Tax accounting made easy

TaxProof funnels and simplifies the key steps involved in the tax accounting process, such as data gathering, data entries, audit trailing and consolidation, allowing you to focus on the most important part of the process : the tax position analysis.

- Setup the tax provisioning files within minutes for all entities.
- Detailed overview with automated consolidation of tax packs in group currency
- Tax Reporting packs that are adapted to the complexity of the entity
- Extensive audit trail functionality
- Intuitive user guide to help onboard users

#### Reduce the risk of human error

TaxProof enforces process consistency, while reducing the risk of human error. TaxProof provides continuous oversights of the status, users, and the tax position at both the reporting entity as well as consolidation levels.

- User and status management feature
- Automated data roll forwards and FX conversions
- Positions from prior periods are locked
- Continuous monitoring of the tax position impact
- Establish a process oriented tax accounting practice across your organization

### about Simplified tax compliance for everyone!

We are here for the tax professionals who are on a mission to scale-up their practices, who hate doing repetitive workstreams manually, who believe in collaboration, want to step up their quality and leverage their resources, and who dare to stand out as innovators.

Over the past 10 years, we have serviced hundreds of clients, ranging from smaller intermediaries to some of the largest boutique firms, law firms, corporate service providers, accounting firms, and multinationals.

#### taxsuite, making tax transparent

We are working towards having a full suite of affordable standardised software solutions for international tax professionals. Solutions that reconstruct the tax concept to make it transparent. How? By showing that tax mechanics are actually very similar globally and by providing in-house tax support through coaching and by training people to become experts. We continuously focus on increasing business intelligence and transparency by ensuring our technology is beautifully designed, simple to use, and user-friendly.
